

Hey everyone!

Are you still wondering what you should do for housing next year? Do you want to live with other people who share a passion for learning about other cultures and engaging in multicultural conversations? Do you want to be able to share some of your culture with others? Look no further!

You can apply to live in the HOME (Housing Offering Multicultural Experience) Residential Learning Community! As part of the HOME community, you will live in Eastman Hall. Here are some of the perks of living in HOME:

- More diverse and culturally aware residents, and more cultures represented in the hall
- Printer AND computer lab
- Magazine subscriptions and library in the lounge
- Super cool RAs (resident assistants)
- An annual Thanksgiving dinner in the residence hall
- Right next to the Area Office (you don't have to put on shoes if you lock yourself out of your room!)
- Near the center of campus - so close to Campus Center and all the academic buildings!

If you want to apply to be in the HOME program, the process is really simple. All you have to do is:

- Log onto HomerConnect (beginning on May 1)
- Go to Student, Financial Aid and Residential Life
- Go to Residential Life
- Click on "Apply for Residential Learning Communities"
- Apply for the HOME program
- Submit!

We look forward to hopefully seeing you around Eastman Hall next year!
