Students planning to do an internship should budget an additional $750 for the required student visa and for transportation to/from the internship site.

**Housing**

Students will be placed in 4-8 person flats or residence hall-style accommodation in Central London. Properties are fully-furnished, clean, and regularly maintained. Each has 24-hour emergency contacts and is located with easy access to public transportation.

**Travel**

A group flight will be arranged for students wishing to travel together. Students may choose the group flight or may opt to make their own travel arrangements. Those making their own arrangements should plan to arrive in London by noon on Tuesday, May 18.

**Field trips**

The London Center will organize two-three day trips for students participating in the summer program. The destinations may include Brighton, Cambridge, and other places of interest near London.

**What about COVID-19?**

It is our intention to re-launch the London Center program beginning Summer 2021. Should we need to alter these plans due to COVID-19 or related international travel restrictions, we will alert applicants and the campus community as early as possible. We recommend that all students planning to be abroad in Summer 2021 have a back-up plan in case international travel isn’t possible.
Option 1: Internship

Students who wish to pursue an internship will submit a cover letter and résumé, and will complete a questionnaire about the type of placement desired. Our London Center internship coordinators find placements for each student based upon the information submitted. Internships can be in any field, except where students would be working directly with patients or clients who belong to certain vulnerable population groups. The placement must be related to either the student’s major or minor. Internships are 3 credits, and are unpaid.

The seminar is a 3-credit interdisciplinary course that complements the internship. The readings and assignments are rooted in current events in the UK and in those features of British culture that distinguish it from the USA, especially those relevant to work culture in both countries.

Option 2: Coursework

Students who wish to take courses instead of an internship should select two courses from those listed below.

**NOTE:** Course selection is tentative and subject to change based upon instructor availability and student interest. Some courses may not be offered if there isn’t sufficient interest.

Course descriptions available at [ithaca.edu/academics/london-center/academics](https://ithaca.edu/academics/london-center/academics)
